

The 2008 Governor's Environmental Stewardship Awards generated over one-hundred applications from across the state which showcased

environmental stewardship by many Tennesseans. Just like any other awards process there can only be one winner for each category. A panel of forty judges gathered to evaluate these nominations. After much deliberation the winners were chosen. The Department of Environment and Conservation would like to give honorable mention to the other outstanding projects across the state. If you would like more information about any of the projects listed feel free to contact Kathy Glapa at (615) 253-8780 or Kathy.glapa@state.tn.us

Agriculture and Forestry

- | | |
|---|-----------------|
| • Bridgestone Firestone North America Tire— Project Hayride | Warren County |
| • Clayton Christenberry Farm—Conservation Efforts | Blount County |
